# [YOUR NAME SURNAME]

Cell: [0XX XXX XXXX]
Email: [name@email.com]
Location: [Area/Suburb, City]
Licence: [Code B] | Own transport: [Yes/No]
PIRB: [Registered / Learner / In process] | Reg no: [If applicable]

## TRADE STATUS

- [Qualified Plumber – Trade Test completed] OR [Plumber Assistant – 2 years hands-on experience]
- Comfortable with: installations, maintenance, fault finding, customer callouts

## PERSONAL STATEMENT

[Qualified Plumber / Plumber Assistant] with [X] years' experience in [domestic/commercial/construction] plumbing. Strong in [geyser installations and replacements], [drainage and blockages], and [leak detection and repairs]. Used to working from job cards, keeping sites tidy, and explaining repairs to customers in a clear way. Available for standby/callouts and able to travel to sites around [area].

## KEY SKILLS

- Cold & hot water supply installations (PVC/HDPE/copper/galv – as applicable)
- Geysers: fault finding, element/thermostat replacements, drip trays and overflow piping
- Drainage: blockages, gully traps, venting basics, inspection and repairs
- Leak detection and repair (visible pipework, fittings, valves)
- Reading basic drawings/plans and measuring accurately
- Testing and commissioning (pressure checks where required)
- Job cards, material lists, basic stock control
- Customer communication and neat finishing
- Health & safety: PPE, ladder safety, safe tool use, clean work area

## WORK EXPERIENCE

**[Company Name]** — Plumber / Plumber Assistant
[City] | [Month YYYY] – [Month YYYY or Present]

- Completed [X–X] service jobs per day including leaks, taps, toilets, and drainage callouts.
- Installed and replaced geysers (including valves and pipework changes) under supervision/according to company procedure.
- Assisted with new installations on site: measuring, cutting, fitting, and securing pipework and fixtures.
- Diagnosed faults by checking shut-off valves, visible lines, pressure issues, and customer descriptions.
- Kept tools and vehicle stock organised; recorded materials used on job cards.
